

# Practise via ferrata

## Character

After the behavior in a via ferrata has been learned at the safe footing course, the next step is the practice via ferrata, which is situated next to the crag. The learned skills can be used immediately on short routes in different levels.

## Equipment for via ferratas

Climbing harness, via ferrata protection and helmet are absolutely necessary!  
For beginners we recommend the attendance of a mountain guide!

## Scale of difficulty

A: easy | B: moderately difficult | C: difficult | D: very difficult | E: extremely difficult

## Attention

There is danger to life in via ferratas during thunderstorms! Be aware of rockfall due to antedates!

Mountain rescue emergency call: 140
