Schlossalm

A ski area that serves every preference

A variety-packed selection of winter sports awaits at the Schlossalm, up at 2350 metres altitude. Whether you are a beginner, getting back into the swing of things again, pleasure skier or keen freerider, the Schlossalm provides the optimum mountain experience for all kinds of skiers. Along with wide pistes and long valley runs, you also get to enjoy traditional Alpine lodges and panorama terraces. The vibrant activity and family programme complete with fun slope, parallel slalom and the legendary 'Nord' run makes the Schlossalm a hot-spot for families who want to enjoy their ski holiday to the full.

Angertal skiing hub

Your first moments in the snow

Angertal not only offers perfect conditions for skiers and snowboarders, but for beginners and families with children in particular. With one of the biggest practice and winter sport areas in the Salzburg Alps, it is an ideal place for those first forays into the snow. The easy pistes and variety of lift facilities that are suitable for children make the skiing hub of Angertal a hub, somewhere in between the long descents into the valley at the Schlossalm and the Stubnerkogel. And there is even an unforgettable winter land experience for non-skiers to enjoy too.

Stubnerkogel

A traditional skiing mountain with a dreamy panorama

The Stubnerkogel not only provides a breath-taking 360° panoramic view to the surrounding 3000 metre summits, but also an unforgettable skiing experience! With its variety-packed and long pistes, including the legendary Sender and Junger descents, the 'Stubner' promises pure fun in the snow for all ages. But it is not just skiers who are well catered for – nature lovers and sun worshippers will also be inspired by the panoramic terraces. The spectacular 140 m suspension bridge and unique viewing points - including the Glocknerblick and the Talblick - provide very special moments for non-skiers too.

Graukogel

Pure nature on the Swiss pine mountain

The atmosphere on the Graukogel in Bad Gastein is unique and special. It is here that you get to take in the dreamy panorama to Gasteinertal and practice your turns in the snow on the 1958 World Championship and natural snow pistes. For nature lovers and ski connoisseurs who enjoy taking it easy, the Graukogel is just the ticket. With its retro charm, this local mountain invites you to relax away from the hectic pace of daily life and experience the tranquillity of nature. The unspoilt natural beauty of the Swiss pine forest, the fantastic mountain panorama and traditional Alpine inns make a stay on the Graukogel an unforgettable experience.

Sportgastein

The highest ski paradise in Ski Amade

Nature lovers and thrill-seekers will fall in love with Sportgastein, the highest ski area (at 2650 m) in SkiAmade. A unique altitude location awaits here and a breath-taking panorama right in the middle of the 'Hohe Tauern' National Park. Up until 1st May you can enjoy this freeride paradise and seek out challenges away from the tended piste areas. Indeed, even the very well-tended pistes provide incomparable ski fun right through to spring, which send skiers' hearts racing. Meanwhile all eyes are on the dreamy views of the mountain panorama from the terraces!

Dorfgastein-Großarlal ski swing
