SLOPE REGULATIONS

for the entire ski area of Gasteiner Bergbahnen AG

1. The slopes of the Schlossalm - Angertal - Stubnerkogel ski area are open from 8:30 a.m. The ski slopes in Sportgastein are open from 9:00 a.m. Depending on the location of the slope and the time of year, the ski slopes are closed from 4:00 p.m., 4:30 p.m., 5:00 p.m. or 5:30 p.m. If there are piste ski touring evenings taking place, the relevant slope is exceptionally open longer (see below).
2. Please refer to the table below for the exact time when the piste closes.
3. After the end of the operation of the cable cars and lifts, a final inspection run is carried out on all slopes. From this point onwards, piste safety is no longer guaranteed, slope checks are no longer carried out, and the ski slopes are closed.
4. In addition, there is an absolute ban on entering and usage on the individual ski slopes (= slope closure) during the periods listed below. During the period of this slope closure, there is a danger to life, in particular from avalanche blasting, slope grooming (cable winches!), and exposed cables and hoses of the snow-making equipment.
5. In the event of avalanche danger - especially with fresh snow - the avalanche commission decides whether and at what time the ski runs in question will be opened or closed. The notices on the panorama boards and avalanche warning lights must be observed.
6. CAUTION - In some cases, snow groomers are also in use during ski operations and during ski tour evenings!
7. NOTE - For our slopes, we use snow canons (snow fountains, changing snow conditions, snow accumulations, impaired visibility may occur).
8. The 10 FIS rules must be observed during the slopes‘ operating hours.

Area & Slope	Name	Daily slope closure		note*
		till 31.01.2026	from 01.02.2026	
Schlossalm				
H1	Hohe Scharte Nord	4:00 p.m. - 8:30 a.m.	4:30 p.m. - 8:30 a.m.	2
